

# Professional Freerider Mike Serlin's Custom Built 1997 Freeride Yamaha Superjet

This is Pro Freerider Mike Serlin's personal boat. It has been all over the world and featured in numerous international magazines, videos, and television shows. It is a one of a kind boat that is built to be one of the strongest freeride boats in the world. Everything about it is incredibly reliable and several hundred hours of research, labor, and thousands of dollars have been spent to ensure this.

## Hull/Hood:

- One of a kind custom freeride built fully fiberglass reinforced stock hull. Reinforcing includes: bottom deck, top deck, nose, tray, dash, and handlepole mounting area.
- Solid filled in bond rail in the front with custom bow eye
- Glassed over and smoothed off gas filler
- Blowsion Tubbie Sponsons
- One of a kind completely fiberglass reinforced hood with custom fiberglass hood liner baffle and modified air intakes. Lets almost no water in.
- One of a kind modified stock handle pole shortened 4" and fiberglass reinforced. Strongest and cleanest looking pole I have ever used.
- House of Kolors paint with custom red, white and black shimmering scheme.

## Mods:
