**B L O W S I O N . C O M**

**BUSINESS HOURS:** Blowsion maintains daily business hours from 9:00 am to 5:00 pm, PST, Monday through Friday.

**PRICES:** All prices shown are subject to change without prior written or oral notice. All orders are invoiced at prices in effect at the time of shipment. Blowsion is not responsible for any incorrectly printed product descriptions, part numbers, or prices.

**TERMS:** Standard Terms are pre-approved credit card purchases and Certified Money Orders. Personal checks and C.O.D. cannot be accepted under any circumstances. Customers who refuse an order will be held responsible for return freight to Blowsion as well as the original freight. Blowsion will not charge the customer's credit card until the order is shipped, unless it is a special order. All goods purchased with a credit card can only be shipped to the address on record of the cardholder. That is, the ship-to address MUST BE THE SAME ADDRESS as where the credit card bills are received by the cardholder. NO EXCEPTIONS. This is to protect you, the cardholder, from fraudulent use of your credit card number.

**ORDERS:** In most cases orders received before 12 noon PST will be shipped same day. However, due to seasonal changes in sales volume please allow 24-72 hours to process some orders from time of receipt.

**INTERNATIONAL ORDERS:** When placing an order by e-mail or FAX, please include your exact shipping address and FAX number, with your country & city code. This is very important. We will e-mail you a quote and shipping options prior to shipping.

**BACK ORDERS:** We try to avoid backorder situations, but if it occurs, we will take your order and then call you as soon as the product is again available.

**SPECIAL ORDERS:** All special orders are shipped prepaid only, and cannot be returned. (Mat Kits, Custom Painted Items, etc).

**SHIPMENT METHOD:** All orders are shipped via UPS or US Postal Service (Military Addresses Only). The standard shipping method is Ground Service, Orange (3 Day), Blue (2 Day) and Red (1 Day) services are also available at additional cost, and only when requested and approved by Blowsion. We do not offer C.O.D. delivery for retail customers. If you require your order to be shipped via U.S. Postal Service (Military Addresses Only), there will be additional handling charges due to costs incurred by Blowsion in delivering packages to the Post Office (UPS, on the other hand, picks up daily from our facility).

**CANCELLATIONS:** Special ordered merchandise cannot be cancelled and are payable in advance. Cancellation of standard item orders must be received prior to shipment of goods. Blowsion cannot cancel an order once it has shipped.

**RETURNS & CLAIMS:** Any requests for the return of goods purchased from Blowsion must be made within 10 days of receipt of goods. No returns will be accepted after 10 days. Prior to any return shipment, call Blowsion for a Return Authorization Number (RA#) that will be issued over the phone. Returned goods must be in NEW and UNUSED condition and in the original packaging and include instruction manuals, hardware and all accessories relevant to the product as it was shipped. If the merchandise has been installed on the watercraft or used, or is missing parts or manuals then you have bought it and it cannot be returned. Merchandise can only be returned by the party that originally purchased it from Blowsion (ie: if you bought it at a dealership) you must return it to that dealership. The customer is responsible for the return freight costs incurred. NO SHIPPING CHARGES REFUNDED. No exceptions. If the merchandise is being returned because of a proven shipping or packing error made by Blowsion, then Blowsion will only cover the cost for shipping the correct product back to the customer via UPS Ground or U.S. Parcel Post shipping. Any expedited air freight requests or costs are the sole responsibility of the customer. Blowsion cannot issue call tags. All approved returns are subject to a 20% restock charge plus the original cost to ship the goods the first time. Refunds will only be for credit towards future purchases - no cash refunds or credit to credit card. In the event of a defective part or goods being received by the customer, Blowsion will exchange the defective item for a new replacement at no charge upon the return of the defective item. Damages caused by the shipper excluded.

**FREIGHT CLAIMS:** All merchandise should be thoroughly inspected by the customer upon receipt. If any shipping damage is found, it is the customer's responsibility to file a claim with the carrier. All claims to the carrier must be made within 24 hours of receipt of goods, or preferably with the delivery upon receiving. All damage claims must be supported by a bill of lading/tracking number and invoice.

**WARRANTY:** All of the items sold by Blowsion are intended for watercraft racing use only and are not USCG approved, DOT approved, or EPA approved. Any of the items sold in our catalog could possibly void the watercrafts manufacturer's warranty. Blowsion warrants its products to be free from any manufacturing defects at the time of delivery but makes no other warranty claims.

**LIABILITY:** The acceptance and/or use of any merchandise purchased from Blowsion by the customer hereby shall release Blowsion from any and all liability pertaining to the use of such merchandise. The customer recognizes that any alteration or modification to any watercraft may increase the risk of injury, accident or death, and may also render the watercraft illegal for use on public waterways.

# The Blowsion Doctrine – 20 years in the making

Blowsion was established 20 years ago in 1989 by John Dady to serve the core of true purists of custom painting, Jet Ski freeriding, racing and freestyling. Devoted to integrity, quality and rendering the look and supplying the parts that customers want and expect from direct communication and testing, John still airbrushes every custom painted item that leaves Blowsion. Unless we can finish our in house human-cloning technology soon, this will continue to be the case.

Blowsion does not fit the slot of any Yellow Pages section. We are a specialized composite design, graphic design, artwork, and refinish facility with many facets and offshoots allowing for some pretty unique and effective products and imagery to be generated. Individual design concepts and projects are achieved with top shelf professional skills and the finest materials available. We use only the highest quality billet aluminum, composite materials, paints, primers, and repair resins.

With aggressive and dynamic graphic and product design Blowsion has endured to presently offer a full line of custom design finishes and aftermarket watercraft parts and upgrades. With countless past and current National and World champions choosing Blowsion as their source for high performance parts and custom paint, the staff of Blowsion is as committed as ever to continuing to push the design envelope.

The Blowsion staff consists of a smorgasbord of backgrounds, with primary expertise in the fields of composite design, computer science, coffee consumption, graphic design, nude drawing, commercial art, sleep deprivation, canine friendship, salt water abuse, graphic design, piston abuse and engine performance.

Not only do we manufacture our own extensive PWC Product line, we also distribute the top brands in the Watercraft industry to our expanding dealer network as well as the retail customer. R-D Racing, UMI Racing, Kommander Industries, RRP Products, ADA Racing, ODI Grips, MSD, AC Racing, WORX, Jet Dynamics, RIVA, Factory Pipe, Skat Trak, and more all rely on the Blowsion staff to keep their products flowing and tech-supported. Same-day shipping and tracking both domestically and internationally via our sales staff and online order system allow our customers to know with confidence that they will be on the water or track rapidly.

As an authorized direct dealer for both ARAI and BELL Street and Auto Racing helmets we can also supply you with the knowledge and correct fit off the shelf to compliment that Picasso helmet paintjob you have always desired. With SHOEI and many other top helmet brands available please feel free to inquire via email for current model and pricing quotes.

Wanting a stand-out look? With the ease of sharing imagery and product ideas via email attachments, we highly recommend staring a dialogue this way. It allows us to have a more cognitive idea of your desired design and project, thus we can better estimate the actual costs and options for you. Anything from F1-style airbrush renderings to carbon fiber composite accessories to color-matched billet bolt-ons. The goal ALWAYS is an unmistakable joint endeavor that'll generate and share the positive vibe created by our enthusiastic staff and clients.

All graphics are painted on. We have a full Vinyl-CAD system for creating templates and incorporating your specific logo or detailed fonts that you may request. We use a combination of PPG brand primers, basecoats and high solid clears as well as House of Kolor brand candies and graphic colors. In other words after countless years of mad scientist experimentation in the spray booth, we use a combination of automotive finishes to create what we feel is a superior finish. We do not use water based airbrush colors or non-catalyzed basecoats. If your paint project is going to see the kind of speeds and abuse that today's sports require, then please do not allow inferior and weak finishes to be applied on it.

We will put together an accurate cost estimate for the paint work/design after we receive input from you on your desires and ideas. We will always want to personalize the design to your uniqueness, so it would be our job to expose a few different ideas or "improvements" to make it YOUR new graphic design. At Blowsion we like to call it the new 2015 version of what maybe is your standard and expected "look."

Spending a day in the surf testing, or in the spray booth creating and designing may be tough work, but we are willing to continue to make the sacrifice to ensure that we always offer the best options, service, designs, and performance for our customers. Check out our new products and gallery of modified and painted watercraft as well as some of the latest custom painted helmets on the web at Blowsion.com.

Kawasaki	01-02-131	

**RIVA Power Bomb 48mm Carburetor** 01-02-101 **\$429.00**  
All Blowson carb kits are pre-jetted for specific applications. All Dual Kits includes throttle linkage & cable bracket.

**NOTE:** R&D Racing, Riva and Full Spectrum Single and Dual intake manifold kits in stock. Call or e-mail for specific engine recommendations.

#### Blowson / Tau Ceti Flame Arrestors

**\$47.95**  
Multi-Fit 4" round x 2" tall. Tau Ceti's new Pro Series II Flame Arrestors are constructed from top-quality materials such as aircraft grade aluminum, stainless steel, and a superior quality rubber base. With free flowing, stainless steel mesh they provide an increase in acceleration and much better throttle response. The universal rubber mount will fit any personal watercraft with a stock carburetor using the appropriate adapter. No re-jetting is required on stock boats. Sold Each.

Carb Adapters - All in stock (Call or Visit Website)

#### Blowson Logo Outerwears

01-02-081 **\$15.00**  
Blowson logo Outerwears flame arrestor water-resistant screens. 4" diameter, 2.25" tall. Fits Prök and Tau Ceti flame arrestors. Specifically formulated to prevent water ingress. Sold individually.

**Blowson Yamaha 701/760 Single Intake Manifold** 01-02-251 **\$235.00**  
Designed to accommodate 44 mm, 46 mm and 48mm carbs (please specify). Each kit includes spacer plate, manifold and gaskets. Fits all 701/760 (62T/64X). Includes Spacer. (Carburetor not included)

#### Tiny Tach

The Tiny Tach tachometer will monitor engines on all stand-up models with single or twin cylinders. Tiny-Tach can be mounted easily using two mounting tabs or double-sided tape. Electrical connections to the engine simply attach to the insulated section of the spark plug wire, connect the ground wire to the engine ground and roll!

06-04-090	Original	\$59.25
06-04-091	Peak RPM Recall	\$84.30

#### Blowson Billet Carb Block Off

01-02-557 **\$39.95**  
Sanitary anodized and engraved Blowson logo carb blockoff. A necessity when using a remote fuel pump. Fits all Mikuni carbs. Billet aluminum with all stainless hardware included.

#### Prök Multi-Fit Flame Arrestors

01-02-021 **\$47.95**  
Flame Arrestor - Prök - Multi-Fit. 4" Round x 2" Tall. Prök high-flow aftermarket air filters feature an internal vortex-shaped cone and rolled intake edge for the highest, most unrestricted airflow possible. Prök Air Filters greatly improve low speed idle and acceleration.

Carb Adapters - All in stock (Call or Visit Website)

#### SXR 800 Exhaust Power Sleeve

01-01-050 **\$32.60**  
The new R&D billet aluminum Exhaust Power Sleeve inserts into the stinger of the stock exhaust to reduce the singer size thereby increasing back pressure. This is a simple installation that will increase top speed and add 100 RPM.

#### Factory Pipe Kawasaki 800 SXR Wet Pipe

No hood mods required! This is THE pipe for the freestyle and surf rider looking for the best bottom end grunt for their SXR. Unreal performance and fit. Easy install and tuning.

#### Factory Pipe Yamaha SuperJet Limited/Mod & FX-1 Pipes

Comes complete with the exclusive tuneable headpipe, aluminum chamber, tuned exhaust manifold and all required hardware.

01-03-138	Dome 850 Blank

#### Exhaust Manifold Conversion Adapter

01-01-060 **\$142.95**

This 6061 aluminum billet exhaust manifold conversion adaptor allows the installer to use the Yamaha Factory Pipe B Limited and B Mod Pipe to be installed on a Kawasaki SXR 800 Motor. Can we say Rippin' power?

#### Blowson Case Kranker

01-03-820 **\$199.95**

Blowson Billet Crankcase Reinforcement for Yamaha Stroker crankshafts.

#### Power Factor Pipe for Yamaha SuperJet

01-01-064 **\$1,299.00**  
Not for the faint of heart or wallet! The Power Factor Dry Exhaust system has been used by the top freestyle riders for the last 7 years, and has won 6 world championships. It is an essential add-on for those with extensively modified superstock and stroker engines that are looking to optimize maximum horsepower. Fits all years Yamaha Super Jet. Comes complete with the exclusive tuneable head pipe, aluminum chamber, tuned exhaust manifold and all required hardware. Requires reduced size fuel cell (pictured below).

#### Power Factor Reduced Fuel Cell

01-02-508 **\$125.00**  
Reduced size 8.5 Liter (2.25 Gal) fuel cell. Less weight. Required when using Power Factor Pipe. Specially designed fuel cell incorporates lower baffle section to reduce fuel sloshing guaranteeing uninterrupted fuel supply. Includes dual pickup and return line hardware for easy install.

# ENGINE

#### Factory Pipe Yamaha SuperJet Waterbox

01-01-453 **\$224.95**  
Factory Pipe was the first to manufacture Super Jet aluminum waterboxes and is still the industry leader. FP boxes are deep drawn (stamped) for reliability and a perfect fit. Exhaust noise is only slightly more than stock while providing better tone and throttle response. They design all Factory Pipe waterboxes to complement FP SJ pipe systems and the OEM SJ pipe. Fits all 1996-2007 Super Jet.

#### Kommander 800SXR Billet Cylinder Head

01-03-001 **\$373.00**  
Bolt on the new Kommander Industries billet cylinder head for unbelievable power gains. Big gains in both acceleration and throttle response. The lid and body are manufactured from 6061-T6 aluminum and anodized with our special titanium corrosion protection coating. These heads are completely o-ringed, no need to use a head gasket, silicone or sealer of any kind. Kits are available with or without our girdle kit. Note: Girdle kit requires that you machine clearance for the girdle bolts to clear the cylinder. Domes are manufactured from 7075 series aluminum which is much less prone to cracking due to high frequency vibration than 6061-T6 aluminum used on other manufacturers' domes. The cylinder lid is drilled for three outlets and comes complete with all hardware necessary for installation. Domes sold separately.

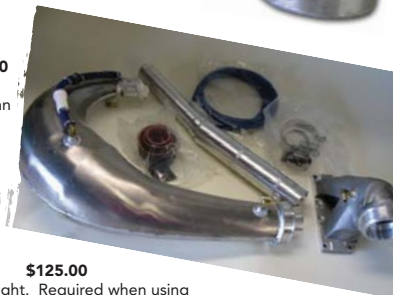

Kommander Head Without Girdle Kit: 01-03-002 **\$290.00**

#### TDR Power Spray "Silencer" Waterbox

01-01-065 **\$230.00**  
The Power Spray type waterbox is designed for the recreational rider or racer who wants the maximum power increase with a deep throaty sound. This waterbox design works well with mildly and highly modified Yamaha and Kawasaki engines.

# ENGINE

## Blowson Dual Exhaust Kits

Ultra sano and absolutely necessary for the stand up freestyle and freeride purist. Allows exhaust pressure during nose stands and aerial moves to exit out the side of the ski, instead of loading up the rear exhaust and engine. All stainless and aluminum parts. Kit includes all pre-bent hoses(no universal radiator hoses allowed!), custom made aluminum splitter, stainless clamps and polished aluminum exhaust outlet.

01-01-504	Exhaust/Dual- Kaw 750	\$289.90
01-01-505	Exhaust Outlet - Kawasaki	\$94.90
01-01-506	Kawi Dual Exhaust 90 Elbow	\$86.50
01-01-507	Exhaust/Dual- Kaw 800	\$289.90
01-01-508	Kawi SXR Dual Exhaust Splitter	\$109.95
01-01-553	Exhaust Kit - Dual - Yamaha SJ	\$289.90
01-01-554	Exhaust Outlet - Yamaha	\$94.90
01-01-555	Exhaust Splitter - Yamaha	\$86.50

## Blowson Fuel Fillers

Kit includes all necessary hardware (internal pickup and block off cap for fuel tank filler neck). Bulletproof design allows for ultimate fuel flow for thirsty carbs. An absolute necessity for racers and freeriders running aftermarket carbs. All billet and aluminum construction. These are the real deal in hi-flow fuel delivery.

01-02-501	Fuel Filler - Yamaha - Single	\$149.50
01-02-502	Fuel Filler - Yamaha - Dual	\$169.20
01-02-505	Fuel Filler Single-Kaw-Frstly	\$149.50
01-02-506	Fuel Filler Dual - Kaw- Fresty	\$169.20
01-02-507	Fuel Pickup - Dual-Kawi- Race	\$115.95

## VForce Delta 3 Reed Kits \$258.95

The VForce reed valve has been the first choice of watercraft racers everywhere. Many of the top teams and racers depend on the extra performance of the VForce Reed Valve System. One of the major benefits of our reed valve is the huge improvement in throttle response. In a sport where holeshots and quick acceleration make the difference between winning and losing, the VForce is a huge advantage! Due to the increased airflow of a VForce Reed Valve System there is a very tangible increase in overall responsiveness.

01-02-306	Yamaha 701/760
01-02-307	Kawasaki 750/800

## Carbon Tech Reeds

A Watercraft engine creates alot of horsepower very rapidly, and the reeds need to be able to keep up with the demanding motor. Carbon Tech reeds hold up longer than any reed available. Fits all Yamaha twins.

01-02-321	Kawasaki Twins	\$117.95
01-02-322	Yamaha Twins	\$99.95

## Ignition Enhancer- Yamaha 01-04-051 \$295.90

MSD ignition enhancer. Get rid of that worthless stock setup and go MSD. Fits all Yamaha 650/701. Hotter spark than stock ignition.

## MSD Total Loss Ignition

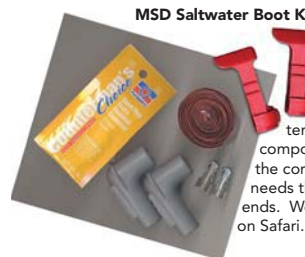

MSD Programmable total loss ignitions allow precise control of timing curve and RPM limit. New digital electronics and waterproof housing provide reliable operation. Powerful multiple sparks ensure complete combuustion and will even fire a fouled plug! Kits come complete with digital ignition unit, lightweight flywheel, trigger plate, trigger pick-up, ignition coil, and heliCORE sparkplug wires.

01-04-101	Total Loss Kit MSD Kaw 650-800	\$1,599.00
01-04-151	Total Loss Kit MSD Yam 650/760	\$1,489.00

## MSD Spark Plug Boot Retainer Kit 01-05-605 \$17.50

13/16 Plug Only. Made from high-temp nylon. Secures the boot to the base of the spark plug. UNREAL for keeping spark plug boots attached during high flying aerials and racing action. 2 per pkg.

## MSD Saltwater Boot Kit and Terminals 01-04-411 \$39.95

This is THE ANSWER for riders dealing with erratic spark caused by corrosion and exposure to saltwater. Kit includes instructions, two MSD 90-degree boots, MSD plug cap retainers, two MSD crimp-on terminals, MSD vulcanizing tape, and dielectric compound. Bring back that performance and keep the corrosion from happening again. Every toolbox needs these items. No more moisture in your plug ends. We send these with all our Pro Surf riders on Safari. Do it once and do it right!

## Throttle Drum 01-02-520 \$36.80

Billet Mikuni / Novi Throttle Drum. Machined from 6061-T6 aluminum and clear anodized for corrosion protection. Features 9 different hole locations for the throttle cable to attach. This allows increased adjustments to accomodate any carburetor or throttle lever combination. Features integrated throttle stops.

## Mikuni Carb Rebuild Kit - Super BN 01-02-491 \$48.95

Complete Mikuni Rebuild Kit for all Mikuni Super BN 38,44,46,48 and 49mm carbs. Genuine Mikuni brand. Not a poor-quality aftermarket kit.

## Kommander Angled Reed Spacer Kit 01-02-351 \$79.95

Bolt on the new Kommander Industries billet angled intake reed spacer kit. Fits Kawasaki 800SXR, 750SX, 750SXi, 750SXi Pro.

## Odyssey Dry Cell Battery 01-05-300 \$125.95

Simply the best battery available for today's standups. Dry cell means no spillage! Longer storage life. Ready out of the box. Fast recharge. Superior cranking power. ZERO maintenance.

## MSD Improved Coil - KAWI/YAM 01-05-012 \$97.00

MSD Part No. 4294. Fits all years Yamaha Super Jet 650/701/760, and Kawi 750Sxi and 800SXR. More juice for your powerplant than any OEM coil can provide.

## MSD 90 Degree Boot Kit and Terminals 01-04-410 \$13.00

Each kit includes detailed instructions two 90-degree boots, and two crimp-on terminals.

## Blowson Dielectric Compound 01-04-414 \$13.91

Put this 1.25 ounce tube of miracle gel in your toolbox! This is the cure for for scattered spark resulting form moisture and corrosion of your spark plug ends and boots. When combined with vulcanizing tape you have an incredible barrier against the dreaded sound of misfire resulting from moisture in the spark plug boot.

## Mikuni Adjusting Screws \$51.95

Mikuni high- and low-speed adjuster screws with "T" cross bar - extended length. Each kit includes 2 high-speed and 2 low-speed screws. NOTE: Fits only Mikuni I-series carbs / OEM KAWI Sxr Carbs and all OEM Yamaha carbs. Absolutely a must for 2004 newer Yamaha Super Jets with aftermarket pipes.

01-02-540	Kawasaki
01-02-544	Yamaha

## Primer Kit - Carburetors

Starting the engine of your personal watercraft is never a problem with a Blowson primer kit. All brass fittings and bulletproof plunger. Get rid of that worthless factory choke and apply a direct shot of fuel!

01-02-401	Primer Kit - Single Mikuni	\$26.95
01-02-402	Primer Kit - Dual Mikuni	\$31.25
01-02-403	Primer Kit - Single Keihin	\$28.60

01-02-410	Primer Piston	\$13.95
01-02-411	Primer Bulb	\$14.95

## Engine Keepers - Joe Kenney Design \$74.95

Designed in conjunction by Blowson Pro Freerider Joe Kenney, our "Kenney Keepers" are a must have for any hardcore surf or flat-water invert artist. Each set contains a left and right side front mount retainer and extended stainless hardware for install. Our unique close tolerance design retains the front, "top heavy" weight of the engine block from being flexed or thrown forward during flat out maneuvers, or inverts. Since this is a common occurrence even in flat water racing action, we have also found them to be excellent insurance against ever having to replace those expensive engine mounts again. Each kit includes left and right contoured brackets, and stainless mounting bolts.

01-03-801	Kawasaki
01-03-802	Yamaha

## Flow Control Valve

Blowson stocks both 3/8 adjustable (pro version) and 3/8 non-adjustable Flow Control Valves. This valve has been designed to prevent water flow to the waterbox at idle and off idle engine speeds. This allows the craft to be more responsive off the line and around turns. Results are HUGE gains in throttle response. All stainless internal parts. IJSBA race legal.

01-01-765	Pro Series	\$49.95
01-01-766	Standard	\$39.95

## Mikuni Throttle Cable Bracket - Pump Side Mount 01-02-512 \$25.95

Fits Most Yamaha - SuperJet - 6mm or 8mm Throttle Cable.

## Mikuni Throttle Cable Bracket Diaphragm Mount 01-02-510 \$25.95

Fits 8-10mm Cable.

## Blowson O-Ring Head Kits

Our bulletproof nitrile o-ring kits come with the same quality and durability you have come to know and expect from Blowson.

## FullGaz THE EARLY YEARS

The ultimate collection from the talented film crew of the FullGaz Posse. This DVD is action packed with camera action of some of the world's best Freeriders, and includes unreal footage some of the most exciting alternative sports seen. FullGaz has the best of the best ripping it up in Freeride Surf, Freestyle Motocross, Tow-in Surfing, Stunt/Street Bikes, as well as Crazy Stunts, Funny Skits and Smoking Hot Chicks showing off the best and brightest assets. See Joe Kenney, Pierre Maxient, Marc Sickerling, Air Darin Anderson, Gil Beurnier, Ross Champion and many more talented riders shred the waves around the globe. Produced by, and for, the aficionados of Action Sports and the alternative lifestyle, EARLY YEARS will bring you the Craziest Action and the Hottest Babes from around the globe. Mix that together with a killer soundtrack and you got one of the sickest Action Sports Films of the year. FullGaz... is not just a state of mind, it's a lifestyle. Be a part if it!

## All My Crazy Friends 3

Back from a four-year hiatus, Fast Times Films Brings back the return of All My Crazy Friends, with "All My Crazy Friends 3 - Live Fast, Die Fat". The third offering in the series is over the top and cannot be missed. The cult classic that helped inspire the sub-culture of Freeriding as well as the pioneer of all the stupid and insane stunts you see on TV has finally reared its ugly and full gonzo head for another round! Filmed on location in Brazil, Bali, Spain, Mexico, and Australia and as well as all over the United States, this DVD combines the best watercraft and action sports athletes with an insane soundtrack. Featuring Pro Riders Joe Kenney, Air Darin Anderson, Pierra Maixent, Eric Malone, Gil Beurnier, James Visser, Jerry Brandon, Taylor Curtis and more. Blowson is proud to be a participating sponsor and supporter of the AMCF crew and the Peralta Day Care Fund! This video is simply tear-ass.

## Rampt

Eric Malone and the World Freestyle Watercraft Alliance have released "ERIC MALONE'S RAMPT VOL#1." The video features the WFWA 15 foot ramp jump, shots in England, Spring Break in Cancun, Chris Maccluggage, Joe Kenney, Jeff Dawson, Mike Jones, Josh and Brad Lustic, Randy Laine, Rick Roy, and many more!!

## Freeloaders

It doesn't get much better than this. We watch this video here at Blowson every day. Joe Kenney and friends take on the most exotic surf locations in the world. 'Extreme' may be an overused word, but it fits this flick. Everything from hardcore surf aerobatics to some entertaining shellfish footage. Pro Riders Chris Maccluggge, Taylor Curtis, Rick Roy, Clay Cullen, Randy Laine and many others show us how it is done the Freeloader way!

## Coastal Rage

Famous Riders. Famous Places. Randy Laine, Eric Malone, Joe Kenney and more go all out in coastal waters from Mexico to Canada. Almost 2 hours of rippin'!

### ODI Grips

No more frustrating glue on handle bar grips. ODI's patented Lock-On Grip System for personal watercraft uses four aluminum Lock Jaw Clamps (two on either grip) to lock your grips onto the bars. They can be removed or installed in just a few seconds without using any glues or ties and without destroying your grips each time. Simply snap the aluminum Lock Jaw Clamp onto the ears on either end of the grip. Slide the grip on to the desired position on the handlebars and lock them into place by tightening the allen bolts in each of the clamps. The special ODI grip composition is actually sticky when wet!

ROGUE: thicker diameter grip, softer composition  
RUFFIAN: thinner diameter grip, harder composition  
XTREME: the popular blend - medium diameter and composition

Visit Blowision.com for a full listing of RRP goods.

### Handle Pole Extension Limiting Rope 03-04-151 \$41.95

The design of the Blowision pole limiting rope is to STOP your pole from extending approx 2-3" from total max extension. This prevents the forward motion of the pole and riders body from destroying expensive handlepoles, pole brackets, hulls and also expensive human body parts! A spring back retention cord attaches to the bottom of the pole spring area and will also pull the pole back down if you become seperated from your ski in surf or large lake waves. All stainless mounting hardware and instructions included. Fits Yamaha FX1, all years Yamaha Super Jet, Polaris Octane, Kawasaki SXR 800, 750 SX, 650 SX & all JS models. A must for ocean or big wave riders.

Through extensive testing and feedback from the worlds top watercraft racers, freeriders and freestylers, Blowision has developed its own line of handlebars so that each model places the rider in the best possible position for both handling, performance and comfort. Designed with careful tolerances to fit the popular ODI Grips with billet end caps. Manufactured from 6063-T832 aluminum. Includes Blowision cross bar foam pad. Offered in Anodized black and clear.

### Steering Stop & Nut 03-04-131 \$23.40

Blowision stainless Steering Stop and nut. Updated design allows for two mounting positions for riders wanting more steering throw. Fits all OEM, UMI, Factory Yamaha, RRP and AC aluminum Handlepoles. Required with KAWI SXR or SXI handlepole conversions.

### Blowision Krok Kollar 03-05-019 \$28.50

Blowision Stainless Steel machined Steering Lock nut. Includes stainless binding screw. Prevents standard lock nut torque failure. Not something made in the land of won-tons or available at your local hardware store! Fits all Blowision and UMI Sealed Bearing Steering Systems.

### Steering System - Sealed w/ Short or Std Turnplate

Billet aluminum steering system with choice of turnplate. Stainless Steel Turnplate shaft rides in two O-ring sealed bearings. Included special machined Blowision Krok Kollar stainless lock nut with set screw. Three different steering ratios. Fits stock or aftermarket handle poles. Short Option features 1 inch shorter design which allows the rider to have a more aggressive forward riding position w/o the cost of a new shorter handlepole. Steering head & bearing housing are anodized carbon grey for corrosion protection. Fits all years Yamaha SJ and FX1, Kawi 750 and SXR 800 Conversion kit, and Polaris Octane.

**Blowson Trim Lever \$89.95**  
Left hand operated spring loaded trim lever for pump freestyle/freeride tilt or racing trim systems. Ergonomically designed for premium fit and feel whether you are on the waves or on the buoys. Lever is angled to reduce hand and arm fatigue. Delrin bushings eliminate the play common in aftermarket levers and provide a smooth lever pull. All stainless hardware at the hinge point eliminates corrosion and play 100%. No C-clips used. Available for all models. Anodized Clear.

03-05-230	Clear
03-05-231	Black

**Blowson Billet Throttle Lever \$68.50**  
Machined with the stand-up rider comfort at a premium, the Blowson straight pull finger throttles are ergonomically designed for premium fit and feel whether you are on the waves or on the buoys. Lever angle is situated to reduce hand and arm fatigue. Delrin bushings eliminate the play common in OEM throttles and provide a smooth throttle pull. All stainless hardware at the hinge point eliminates corrosion and play 100%. No C-clips used. Available for all models. Some models require throttle cable adaptor (listed below).

**Cable adaptors** are needed to fit stock throttle cables for Kawasaki 1996 & up. Pre-1986 Kawasaki models and all Yamaha models need to use 03-05-242.

03-05-241	Throttle Adaptor - Kawasaki	\$10.50
03-05-242	Throttle Adaptor - Yamaha	\$10.50
03-05-243	Throttle Adaptor- Sea Doo	\$15.85

**Engine Flush Kit**  
No tools, clamps or extra hoses necessary. Back flushes entire cooling and exhaust system instead of forcing sand into cooling jackets. Use in conjunction with our salt terminator kit. Simple and effective. Easy to use. Just push into your aftermarket aluminum water bypasses. Triple bypass design is designed especially for the Factory Dry Pipe equipped SXR 800.

06-04-001	Flush Kit - Single Outlet	\$26.95
06-04-002	Flush Kit - Triple Outlet	\$49.95

**Salt Terminator Kit**  
A salt dissolving solution for rinsing your watercraft. Quart Kit comes with hose adaptor.

06-03-101	Salt Terminator - QT W/Mixer	\$29.95
06-03-102	Salt Terminator Refill	Gallon \$31.53

**Blowson Pole Bracket- for 96+ SJ and FX1**  
Now Available in single and two hole breather option for the RRP Handlepole. Lowered billet aluminum handlepole pivot brackets for '96 & newer Super Jets, 94-95 Yamaha FX1, and 750 Kawi Conversions. There is no match on the market today for durability and performance. Will not break or bend. This is the Ferrari of handlepole brackets available. New features include threaded recessed mounting holes for Blowson hood straps and an extra wide base for additional support. Oversize length(s) of breather tubing included. Blowson design includes handlepole spring mounting hole for riders that desire a light pole set up with handlepole spring (not available with other brackets w/o purchasing additional parts). Blowson now is the only manufacturer to offer this replacement billet bracket for the FX1. Please specify below when ordering. Precisely machined from a chunk of billet aluminum (not welded steel like other brackets on the market), this piece will not break or bend. NOTE: Will fit stock hood and stock front cover w/ no modifications.

03-03-003	Blowson Pole Bracket Sngl SJ	\$259.00

06-05-001	Scissor Stand - Stand-up	\$154.95
06-05-002	Scissor Stand - Sitdown	\$169.95

**Blowson Sheathe-Fit PWC Covers \$129.95**  
Swaddle your stand up watercraft weapon from the elements and prying hands with our new Blowson woven and stitched polypropylene covers. Designed with stand-up detail, the Blowson Sheaths are available for the 4 most popular OEM Stock or heavily (hull) modified stand-ups being ridden today.

The 3 most outstanding features include extra stitched length in the bar area for extended aftermarket handlebars, extra material and improved design to accommodate shortened and/or aftermarket aluminum handlepoles, and a non abrasive interior fabric to protect those high dollar clear coat custom paint jobs.

Currently available in Pursuit Green for some models listed as well as Carbon Black for all models, the Sheathe resists moisture, rot and mildew and is seal coated for UV resistance. For on the road trailering, all stress seams are overlapped and double stitched with bar-tacked tie-down loops for securing your cover against wind flap.

**Brap Strap 04-04-310 \$99.95**  
Strap and secure your hood to avoid accidental dislodging during freestyle and freeride maneuvers. Replaces stock latch assembly. All mounting hardware included. A must for extreme ocean and big wave riders. "Cinchable" strap tension means you pre-load strap holding power. Fits all SJ, SXR800, FX1, 750sxi and Octane.

**Battery Box - Aluminum 01-04-601 \$69.95**  
Replace that cracked and worn out stock plastic battery box with bulletproof Blowson aluminum. Each box includes all stock location retaining clips for easy exchange. Padded bottom. Direct fit replacement for all years Yamaha Super Jet, FX1, and Polaris Octane. Can be fit as replacement to all Years KAWI 750 and SXR 800 with minor battery strap modifications.

**Handle Pole Pivot Bolt 03-04-143 \$54.86**  
Corrosion resistant, hardened steel and stainless hardware. Fits all 96+ Yamaha SuperJet.

**Stainless Hood Latch Assembly 04-04-030 \$149.95**  
Fits all 650/750/800/X2 Kawasaki. Comes complete with latch assembly and hood clip. 100% polished stainless. Trick and functional. Why incur the factory OEM replacement expense?

**Super Siphon 06-04-089 \$15.00**  
The coolest too out to remove fuel without burping gas for a month. Extended length of hose reaches all angles and fuel tanks. Not a beer bong!

**Yamaha Low Pro Billet Fuel Cap \$58.00**  
Blowson Low Pro Billet aluminum fuel caps for all Yamaha watercraft. Low profile smooth design allows for outside fueling, yet will not get in the way during aerial or freestyle moves around the front of the watercraft. Engraved grooves allow for easy handling.

04-03-190	Clear
04-03-191	Black

**Hood Hooks - SXR 04-04-101 \$76.95**  
Utilizing our many years of Super Jet Freestyle and surf quality hood hook design experience, these bulletproof SXR billet hood hooks allow for the ultimate abuse of your SXR on the race course, river or in big surf. Do not risk losing your hood. No more tweaked or broken OEM clips bending or breaking and causing serious engine and wallet damage.

**Yamaha SJ Billet Exhaust Nozzle \$78.60**  
Updated carefully for 2008 to fit the new narrower Super Jet bottom hull. This is one ultra off the hook nozzle. Function and fit are Blowson perfect. Vanity rules on these beauties. Blowson logo engraved into the design. Cover up that ugly exhaust flange. Also retro fits to all 96-07 Super Jets. Trick, functional and fashionable. Works with our new CAS Billet One Way Valve to make a finished sano look to both sides of your ski.

**Handlepole Mount Reinforcing Plate 03-04-065 \$31.95**  
Fits all models of 1996-2008 Super Jet and all Polaris Octane. Works with OEM and Aftermarket pole brackets to disperse the load from aerial and ocean moves. Made of solid laser cut 1/8 inch stainless steel this is the best damage control accessory we can recommend for those riders that shred the big stuff. Installs on underside of pole mount area using current hardware. Helps prevent existing cracks from spreading. NOTE: Breather tube hole may need enlarging on some model pole brackets.

# COMPOSITES

## Footwells - Kickers 05-03-005 \$149.99

Designed specifically for the Super Jet and Kawasaki SX-R 800, and used exclusively by Ross Champion on his Factory Blowsion 2008 Yamaha SuperJet and Air Darin Anderson on his Freeride SXR. These hand-laid, molded fiberglass insets provide extended room in the tray of your ski to position your feet. Comfortably sized for average to larger feet (size 7- 11+), these footwells contour to your ankle and also feature a gentle protrusion over the top of your foot for better locking power. Easily upholstered with either Hydro turf or stitched mat options. Please feel free to e-mail for more sample install pictures!

Recommended Applications: All Yamaha SJ, Kawasaki SX-R 800, and Polaris Octane.

## Footwells - Dawson Digger 05-03-004 \$149.99

Comfortably sized for average feet (sizes 6-11), these footwells also feature a gentle protrusion over the top of your foot for better locking power. We offer pre-cut mat kits for all applications of our Digger footwells in both Blowsion Stitched or Blowsion Hydro-turf material. Our optional stitched inserts are also available for easy insert upholstery with either mat option.

Recommended Applications: Yamaha SuperJet (all years), 94-95 FX-1, Kawasaki 750 SX/SXi/Sxi Pro, and Polaris Octane.

## Footwells - MacClugage Mashers 05-03-006 \$149.99

No Cutting of the wide SXR tray required. Designed in conjunction with Pro Kawi rider Chris MacClugage and Darren Hedlund. Experience the feel of a standard footwell cut out without having to notch out your SXR tray. 100% race legal.

## Footwells - Recreational 05-03-003 \$149.99

The Originals! These hand-laid, molded fiberglass insets provide extended room in the tray of your ski to position your feet. Will fit and work in all models of watercraft. Flush mount. Perfect for those riders that do not want any footwell extrusion into the tray.

## Install Materials Kit- Footwells/Hull Reinforcement 06-03-113 \$31.95

Each kit includes all materials needed for mixing into, and handling, your installation resin (available seperately). Silica Thickener, mixing cups, brushes, gloves and knitted fabric cloth for all seams. Also included is our much sought after Blowsion resin tips and technical install instruction sheet, which is staked full of helpful information concerning footwell installations, hull reinforcement, and hull repair.

FINALLY-- a kit with the necessary small quantities that are needed for this kind of install. No need to go buy \$150.00 dollars worth of bulk materials! Let the itching begin!!!

## SXR Composite Rail Caps 05-04-001 \$199.95

A complex fitting piece made with the best fit and features available. Get rid of those extremely slippery factory rubber black rails and go composite. Available in gel coat white and ready to mount and go. Combine them with either our stitched, or Hydro Turf SXR mat kits and you are ready to rip. Blowsion Custom painted Color Rail Cap Options available for those with vanity deep in their blood.

## SXR 800 Front Covers

Shaped and molded for front end durability, our Kawasaki SXR Nose Cover options ready to roll. Composite and carbon fiber construction. Quit ruining and replacing your \$50 OEM Kawi front plastic bumper and go Blowsion Bulletproof. Also available is the updated Blowsion Bow Eye Style replacement.

05-02-303	Bow Eye - GelCoat	\$220.00
05-02-304	Bow Eye - Carbon	\$256.00
05-02-305	Standard - GelCoat	\$220.00
05-02-307	Carbon Fiber	\$256.00
05-02-309	Smooth OEM Hood	\$220.00

## Blowsion Handhold Nose Cover - Fits OEM SJ Hood

Factory replica composite replacement with air/water intakes removed and built-in recessed handhold. Matches OEM hood profile. Bulletproof design does away with water ingress issues common with the OEM plastic front cover. Fits all '96+ newer Super Jets. Allows for more aggro moves with yet another grab hold to hold onto during freeriding and freestyle mayhem. Also available in standard replacement model without handhold.

05-02-266	Handhold Model	\$249.00
05-02-264	Std Model	\$229.00

## Foam 2-Part Expanding - Kit

No more home insulation foam in a can. This is the real deal. Marine-quality expanding foam. Mix equal parts A and B in the supplied mixing cups and you have waterproof and cured foam expanding in 60 seconds or less. Use a syringe and squirt it in during footwell or one way valve installs. Blowsion A and B foam cures through chemical catalyzation.

06-03-131	2-Part Expanding Pint	\$29.95
06-03-132	2-Part Expanding Quart	\$49.90
06-03-133	2-Part Expanding Gallon	\$119.10

## Epoxy (2 Part) Devcon Plastic Welder 06-03-121 \$8.95

This is THE glue for all your PWC needs. Bonds to SMC, Gel Coat, fiberglass etc. Commercial Grade - not available over the counter. Easy to dispense small tube applicator. This Blowsion Methacrylic epoxy is your toolbox's best friend!

## Epoxy-Resin/Adhesive

Quart Kit High performance, gap filling, waterproof, 2 part epoxy designed to provide superior results in footwell installations and hull reinforcement and repair. 1;1 ratio for easy mistake-free mixing.

06-03-122	2-part Pint	\$39.25
06-03-123	2-part Quart	\$71.95

## Blowsion Handhold Nose Cover Fits JK Hood Kit 05-02-265 \$249.00

Lowered front JK Nose Cover with built in 360 degree recessed handhold. Allows for more aggro moves with yet another grab hold to hold on to during freeriding and freestyle mayhem. Available in Gel Coat white. Fits all JK Hood Kits and most aftermarket hood contours on the market.

## Resin - SMC - Quart Kit AWM120 \$49.95

Many of today's watercraft are constructed of SMC (sheet molded compound), which requires a resin formulated for use on SMC. All years Kawasaki 750 top deck. Bottom hull is SMC up until the SXi Pro model, which is hand laid (repairable w/ SMC Resin or EPOXY) 95 Older Super Jet- Bottom deck is SMC. Yamaha FX1 hood is SMC. All years Kawasaki JS, 650SX - top and bottom deck is SMC throughout. Please e-mail BLOWSION for further exclusive reinforcement and repair details.

## Carbon Fiber Hull Extensions \$239.95

Blowsion hull extensions are constructed of a carbon fiber composite combination. They are epoxy glued and screwed to the back of the ski. They can be trimmed down in length once installed (4" length to start- the IJSBA rule is 3.9" max). Our exclusive inward tapered side extension length is not a "universal" length- once again we manufacture them oversize so our customers can trim them down to adjust for differing rider weights, and riding style (ie; more nose pressure / less nose pressure). Blowsion hull extensions will fit with any ride plate available on the market. IJSBA Race legal. Not recommended for freestyle unless you prefer to keep the nose down. Sold as a pair. NOTE: Blowsion hull extensions exert too much nose pressure if you do not match them with the matching Blowsion side sponson set.

02-01-301	Kawasaki SXi Pro
02-01-302	Kawasaki SXR
02-01-351	92-07 SuperJet, Kawasaki SX
02-01-352	08+ Super Jet

## Hood Baffle Kits \$289.60

Improves engine airflow while limiting water intake. Light weight, sanitary and a must have for any serious racer, freerider or freestyle. A cost-effective option that allows you to experience the benefit of an improved factory system without the high-dollar costs of a complete aftermarket replacement hoodkit. Designed to clear all current wet and dry pipe exhaust systems on the market. Includes extremely concise instructions that detail removing the factory hood baffle and ensuing Blowsion baffle installation.

## Hood Baffle Insert for SXR Factory Pipe 05-02-108 \$99.95

Use this composite drop in baffle insert to cover the area removed during install of the Factory Pipe for the SXR. This is the same insert used by the Factory Kawasaki Race Team. Each baffle comes with extra air drop tube, install flange and epoxy glue to move and replace the one displaced by the pipe install. Explicit directions include tips as well on how to improve stock inner hood liner for improved airflow.

## Remote Fuel Pumop Bracket - Carbon 01-02-556 \$59.95

Use this ultra sano 100% carbon fuel pump bracket when adding remote fuel pumps. Fuel pump available seperately.

## Gauge Block Off Blaster 05-04-450 \$39.95

Get rid of that unsightly gauge window on the side of your Blaster with this sano carbon piece by Blowsion.

## Drop-In Hand Hold Kits \$139.00

Made from a special blend of composite materials. EASY to install by following the provided step-by-step instructions. Included in kit: Detailed instructions and templates, (2) hand holds (left and right), two-part epoxy glue. 'Q' Hold Universals will mount on any flat surface of your ski. Standard holds mount in the forward portion of the hood and mid-mount models are about 12" from the front. Color: Urethane Gray (special order colors available)

## SXR Carbon Dash 05-04-101 \$199.95

The ultimate finishing touch to the SXR tray. Full carbon and full sanitary.

# HOOD KITS

## SXR RACING Hood Kit- Raptor 05-02-022 \$795.00

This Ultra Sano design features rear cowl air intakes and a raised handlepole channel with dual air scoops. Results are a superior design that flows air into a sculpted baffle that fits the SXR dry pipe like a glove. Gel coat white finish. Special order colors available. Built with the quality that all Blowsion composite products are known. Construction is a hybrid of carbon fiber and stitch-bonded fabric. The result is durability unmatched in the industry. This strong AND lightweight work of art is the Ferrari of race hoods and is currently being abused by Pro Kawasaki British World Champ Jordan Fielder, and South African World Champ Dustin Motzouris.

## Kawasaki 750 Conversion Kit

Make your Kawi 750 into a Super Jet and SXR destroyer! Get rid of that bulky Kawasaki stock or standard aftermarket handlepole and pole bracket. What are the benefits? Lowered center of gravity, proper body positioning due to the movement of the steering system components, and a light weight design that will make your SXi the rage. Designed in in conjunction with Team Kawasaki Racing, this kit is a must have to be competitive in racing, freestyle or freeride. Due to the multitude of options with the Kawasaki conversion and what mods may already installed on each ski, please feel free to call or e-mail for further details. The base kit includes our unbreakable Blowsion 750 billet pole bracket, conversion turn plate and your choice of 3 front cover options. All Blowsion proprietary items to bolt up an aftermarket aluminum Yamaha Super Jet design handlepole on the market included. (Handlepole sold seperately)

05-02-001	Hood Kit Lustic 750 Freestyle	\$1,239.50
05-02-002	Hood Kit Lustic 750 Race	\$1,150.50
Choose Nose Cover Option:		
A) Bracket Cover Only (works w/ stock fuel door)		
B) One Piece Cover		
C) One Piece Cover with recessed handhold.		

05-02-005	Hood Only - Lustic 750 Race	\$876.00
05-02-006	Hood Only - Lustic 750 Freestyle	\$995.50

NOTE: Hood separate Will fit stock pole bracket and stock handlepole.  
\*NOTE\* Additional items required: handlepole, chin pad, pole bolt, pole spring sealed bearing steering kit- CALL/Email.

## SXR Freestyle Hood - Raptor 05-02-023 \$925.00

Now available- features rear cowl air intakes and custom raised handlepole channel. Result is a superior design that flows air into a sculpted baffle that fits both the SXR dry and wet Factory Pipes like a glove. Gel coat white finish. Special order colors available. Built with the quality that all Blowsion composite products are known. Construction is a hybrid of carbon fiber and stitch bonded fabric. The result is durability unmatched. This strong and lightweight work of art will survive both flat water and surf punishment. Includes one set of carbon handholds. Fits with OEM Front cover and pole bracket as well as aftermarket options.

## Hood Kit - JK Freerider

Constructed of a carbon/composite laminate construction, this beast will survive both freeride and freestyle punishment. The JK hood channel has been widened and rounded out to prevent hand and finger jamming damage during aerial grabs or flatwater antics. The 'JK' Kit come complete with our lowered Blowsion billet bracket in single or dual breather option, (not a weak and bendable welded metal bracket) and oversize handlepole breather tubing. Available with single set 360 degree handholds, multiple sets, or even without built in handholds. Now also available with handhold front cover option. Your choice. Choose from Lightweight flatwater Freestyle construction/weight, or Heavy Duty Surf Impact Protection (keep in mind the stock Yamaha hood for the Super Jet weighs 22-24lbs). Hoods are shipped Gel Coat White. Custom options listed below.

05-02-081	JK Hood Kit w/2 Handholds	\$999.95
05-02-082	JK Hood Kit w/4 Handholds	1,093.75
05-02-083	JK Hood Kit w/6 Handholds	1,187.50
05-02-084	JK Hood Kit w/8 Handholds	1,281.25
05-02-085	JK Hood Kit No Handholds	945.00
05-02-086	JK Hood Kit w/2 Handholds - Dual Bracket	999.95
05-02-087	JK Hood Kit w/4 Handholds - Dual Bracket	1,093.75
05-02-088	JK Hood Kit w/6 Handholds - Dual Bracket	1,187.50
05-02-089	JK Hood Kit w/8 Handholds - Dual Bracket	1,281.25
05-02-090	JK Hood Kit No Handholds - Dual Bracket	945.00

## Yamaha FX-1 Freestyle Hood 05-02-051 \$628.50

The FX-1 Freestyle Hood is 1/2 the weight of the stock hood. Inner baffle is set up to provide easy evacuation of water through the rear air intakes. Recessed 360 Degree Handholds allow for grabbing from all directions, not just back towards the riders position. Virtually eliminates all water ingestion from subs and nose stabs.

## SXR Lowered Freestyle Kit 05-02-021 \$1,110.00

Throw down ready is our SXR Freestyle Hood Kit featuring a completely redesigned hood and front end. Throw away that tall and topheavy, bulky OEM Kawi set up and awaken the real possibilities of the Kawasaki SXR. Taking our years of Kawi 750 freestyle development with Josh Lustic, Darren Hedlund, Steve Webster and the Factory Kawasaki Racing Team, we have built a kit that incorporates all the best - lightweight and lowered freestyle hood, front cover, and all lowered and machined billet mounting hardware, brackets and seal. Hood exterior and interior baffle is asymmetrical in design to accomodate the use of both the Factory Dry Pipe and the Factory Wet Pipe. Hood channel has also been opened up and rounded off for hand clearance during intense moves. All air intake is from rear of hood. Water intake is ZERO. Color: Gel Coat white.

NOTE: Kit requires use of the Blowsion internal Fuel Filler - Single Fuel Filler or the Dual Fuel Filler. Works with OEM pole however, best performance and fit is gained when using the BLOWSION pole conversion. This beast roasts.

## Super Jet ('95-older) Freestyle And Race Hoods

Incredible lightweight design with improved airflow and water drainage that is unbeatable. Freestyle hood comes with built in 360 degree handholds. Gel Coat White.

05-02-061	Hood - Moody 95-SJ Freestyle	\$690.90
05-02-062	Hood - Moody 95-SJ Race	\$629.00

## Brewtus Hood Kits For '96+ Super Jet

Brewtus Kits come complete with our lowered Blowsion billet bracket (not a weak and bendable welded metal bracket), the totally advanced BREWTUS lowered hood with 360 Degree built-in handholds that allow for grabbing from both directions and your choice of one of two contour fit front cover options. The Brewtus race hood has improved ram air induction and is constructed of the lightest weight carbon-composite materials we can find. No handholds included. Gel coat white.

05-02-071	Brewtus 96+ SJ Race	\$985.05
05-02-072	Brewtus 96+ SJ Freestyle	795.05
05-02-073	Brewtus SJ AAR Nose	1,185.00
05-02-074	Brewtus SJ Low-pro	1,185.00
05-02-075	Brewtus SJ Race	1,185.00

# SPONSORS

## Tubbie Destroyers New for 2010!

Built and shaped specific to the unique hull shape of each watercraft, the Tubbie Race Destroyer is fully removable with an average 10 minute per side install! Interested in wanting to experience the Tubbie handling improvements but a little nervous about screwing and gluing into your beautiful machine? Composite backed, the Destroyers do not use screws for installation. Three(3) machined billet and stainless couplings per side are included with each set of Destroyer sponsons- and that is all that is required for hardware install! This is the ultimate in customized front sponson set ups and allows the rider to adapt to different riding conditions and test with ease. Designed exclusively for each model hull shape, these sponsons put to bed and DESTROY the lame copy cat front sponson posers out there.

With this Blowsion patented two-plane Tubbie technology we have slimmed, trimmed and re-defined the Tubbie shape specifically to accommodate the hull footprint these specific skis have. This allows the hull to sit slightly deeper in the water, while still giving the ski the well known benefits of the Tubbies aggressive turning, hook up and bow buoyancy. This, all without creating too much floatation and side to side instability at mid speeds. We have found with the addition of the Tubbie Destroyers the ski is much less fatiguing to the racer as it becomes easier to maneuver around the course on long motos or Freeride sessions.

Like all the Tubbie models offered by Blowsion, the Destroyers are a win-win benefit to any rider or ski. Constructed specifically with the aggressive rider in mind. Each Set includes detailed installation instructions, fast set epoxy, and all stainless and billet aluminum mounting hardware. Patent Pending #60/509.114.

**02-01-010 Tubbie Destroyer Side Sponsons - Removable- KAWI SXR-Hydrospace (IJSBA Legal) \$339.20**  
There have been only a few inherent problems with racing the Kawasaki SXR and S4 from Hydrospace. The challenge has been keeping the ski hooked up in the turns, and keeping the nose from submerging. Very small complaints against an incredibly well designed bottom hull design.

**02-01-013 Tubbie Destroyer Side Sponsons - Removable- Yam SJ 1996-2007 (pending IJSBA Approval) \$339.20**  
With the Blowsion patented two-plane Tubbie technology we have severely lengthened and re-defined the Tubbie Destroyer two-plane shape specifically to extend the wider footprint needed for Freeriding wave turns and barrels on the Super Jet. This allows the rider to update his 07 and older SJ hull to ride more aggressively in the water emulating the 2008+ Super Jet lower hull design, while still giving the ski the well known benefits of the Tubbies aggressive turning, hook up and bow buoyancy.

**02-01-012 Tubbie Destroyer Side Sponsons - Removable- Yam SJ 2008-Current (IJSBA Legal) \$349.95**  
Racing, Freeriding and Freestyling the new improved 2008+Newer Super Jet hull design has been a thrill for anyone that was frustrated by the 11+ years of no changes or improvements of the SJ by Yamaha. With the addition by Yamaha in 2008 of the Tubbie shape incorporated into the OEM hull, we had very few complaints against an incredibly well designed bottom hull design (especially since we take full credit!). What we have found was the 08+

## Marine Sealant - 240ML Tube

The key to installing Tubbie I/II/III Sponsons and other composite accessories on your watercraft. Easy-to-use tube fits a standard caulking gun. Fast-set formula dries tack free in 90 minutes and delivers extremely tough bonds. 920 Fast Set is the choice for all Blowsion sealing, bonding, or potting applications, especially through-hull fittings, joints, bilge pump mounts, etc. Sandable and paintable after cure. Non-yellowing and UV resistant. Note: Sponson installation requires two tubes. Sold each.

06-03-135	White	\$14.50
06-03-136	Black	\$16.50

## Tubbie I, II, and III Sponsons - Universal Fit -Screw On

Now for 2009 with the exciting introduction of our removable bolt on Destroyer Tubbies Sponson line we have streamlined production and reduced cost of the original breakthrough screw on permanent Tubbies! The new price is now reduced from \$279.00 to the lower price of \$249.00 for the popular Tubbie I, Tubbie II and Tubbie III's. These three universal-fit models will fit all stand up models on the market.

To clarify the difference between the models, what we have done is recessed a concave shape into the bottom leading edge of the Tubbie II sponson to create a harder and sharper edge for turning and tracking. The Tubbie II grips better in turning and is more stable in straight line high speed riding. The Rec/Freeride model Tubbie I is very stable, but has some nose wandering at mid throttle due to the curved chine riding back and forth on the bow wave. This is very beneficial in freeriding as the ski is able to be more forgiving and reacts better to a variety of directions and water flow angles.

The Race Model Tubbie III's are more aggressive, but less forgiving riding over the tops of waves diagonally. Tubbie Mill is called the SlimPhast Sponson due to its sleek and fast design shape. This is not a cheap plastic copy, but the real deal with real development, durability and design incorporated from years of testing and riding. The Tubbie Mill offers the Kawasaki SXR and Hydrospace S4 racer (and hardcore rec shredders) a front sponson model that is tailored to fitting these two craft most beneficially at the lowest pricepossible. Patent Pending #60/509.114.

02-01-002	Tubbie I Side Sponsons - Surf/Rec Freestyle - Patent Pending - All Models - Screw On	\$249.00
02-01-003	Tubbie II Side Sponsons - Race/Rec - Patent Pending - All Models - Screw On	\$249.00
02-01-004	Tubbie III Side Sponsons - Race HYBRID - Patent Pending - All Models- Screw On	\$249.00

**Side Rail Moldings**  
Made out of injection molded flexible urethane. Attaches to your watercraft with its own adhesive backing. Each kit includes special pre-wipe cleaner to promote maximum adhesion and durability.

04-02-301	Side Molding - 1 1/2" Black	\$54.90
04-02-302	Side Molding - 1" Black	\$49.99
04-02-303	Side Molding - 1 1/8" Chrome	\$59.99
04-02-304	Side Molding - 5/8" Black	\$49.99
04-02-305	Side Molding - 5/8" Chrome	\$49.99

Gain the secret Pro racers edge. Get rid of those ill-fitting OEM side moldings that scrub speed and cause poor under the rail water flow during racing conditions. These are the same 1.75 inch wide moldings used by the Kawasaki Racing Team. Cost is almost 50.00 dollars less than OEM Kawasaki replacements. Will not warp in the sun or heat. All pricing listed is as a set of two, pre cut, no holes are drilled. Stand up kits fit all years Kawasaki SXR and 96 Newer Super Jet. Runabout kits fit all STXR and all 1.75" bond flange PWC on the market.

04-02-308	Side Molding- Runabout	\$195.00
04-02-309	Side Molding- Stand-up	\$130.00

**CARBON COMPOSITE CHINPADS**  
Ultra clean shaped and formed carbon backing with billet mounting ears and stainless fasteners covered with closed cell foam. Upholstered by your choice of a 2-color combo "glove fit " BLOWSION logo cover (15 color combos in stock- others available special order-7-10 days) Throw out that waterlogged factory roach!

1996+ SJ,FX1,Octane and KAWI-SXR/Sxi Pole Conversion	\$259.95
1995- SJ	\$259.50
All Years Kaw 750/800 OEM Pole	\$214.95

BLOWSION CHINPAD COVERS Available separately for \$39.95-44.95 (Massive color selection. Call or e-mail)

**DAKINE Footstraps**  
Dakine Freeriding foot straps can be easily adjusted on or off the water for all foot sizes and riders. Great for riders looking for that Joe Kenney or Pierre Maxient wave-shred style of surfriding.

The new X-Lace model has a unique pull tab adjustment system that is not affected by salt and sand. The X-lace is considered the most versatile of the DAKINE line and will work with whatever foot size and foot covering is used. The Supremo is best designed for riders who wear booties or riding shoes. Each model includes a 3-hole pattern to accomodate single or double insert installs. The Profrom footstrap is the most flexible of DAKINE model footstraps and is commonly the most preferred for riders who ride barefoot. Includes a 3-hole pattern to accomodate single or double insert installs. All Good! Double Backy anyone?

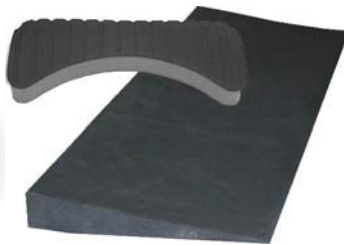

04-02-335	Dakine Supremo Footstrap	\$25.95
04-02-336	Dakine Proforma Footstrap	\$20.95
04-02-337	Dakine X-Lace Footstrap	25.95
04-02-338	Dakine Hrdwr kit - less glue	\$9.95
04-02-339	Dakine Hrdwr kit - with glue	\$18.75

NOTE: Price listed is for one Dakine Footstrap.

**Hydro-Turf Sheet 36" x 50"**  
**\$59.95 per sheet**

Choose from standard straight groove, diamond groove, or the new waffle groove sheets. Available in all colors listed. Please visit Blowision.com for all color and model options.

**Kick Wedge - Hydro-Turf**  
Add a kick tail to your watercraft bottom mat area with this 1" wedge. When installed under the traction mats, some models of watercraft may require an extended bottom mat.

Size- 5.5" x 18" x 1" height.

04-02-345	Hydro Turf Kick Wedge	\$19.95
04-02-347	Hydro Turf Lifter Wedges	\$15.95
04-02-351	Handlepole Shock Pad - Yam Hydro Turf	\$15.95
04-02-352	Handlepole Shock Pad Kawasaki 750/800	\$15.95

#### Side Rail Hydro Turf Kit

Improve traction on the side rails of your ski with our custom fit rail covering kit. All kits constructed of diamond Hydro Turf unless you special request straight molded. Also available the widening "extension" kit for added grab area.

04-02-321	Siderail Extension kit Kaw750/Yam SJ	\$139.95
04-02-322	Siderail Extension Kit Kaw 800	\$139.95
04-02-323	Siderail Turf Kit Kaw SX-R 800	\$52.95
04-02-324	Siderail Turf Kit Kaw750/YamSJ	\$44.95

#### Kick Plate - Aluminum

Permanent fix for keeping your bottom mat in place during big wave action. Special Blowision contour bent L-shaped aluminum plate with attaching hardware. Guarantees that you will not be dealing with loose tray mat due to the glue not holding in this compound angled area.

04-02-342	Kick Plate - Yam/Kaw	\$27.95
04-02-343	Kick Plate - SX-R	\$27.95

#### MAT/UPHOLSTERY OPTIONS

Glue On Traction! Each kit Includes bottom, sides, dash, and undermat. Available for all stand up watercraft as stock replacement kits, or for covering Blowision Kicker, Digger, Masher, Klowner or Recreational Footwells. Our footwell kits feature one piece bottom mats- no extra pieces to fight with gluing into the footwell. Your choice of Stitched upholstery or Hydro-Turf (TURF) straight and diamond grooved traction mats. Massive color selection to choose from.

Please visit Blowision.com for all color and model options as there quite simply is just too many to fit in this catalog!

\$129.95 on up for Hydro Turf Mat Kit Options.  
\$189.95 on up for stitched mat kit options.

#### Blowision Mat Glue

"Blow Goo" to the rescue. Use this solvent-based contact adhesive with your Hydro Turf or stitched mat kit and never worry again about your mats coming loose. This is the NASTIEST adhesive we could find. Not your ordinary off the shelf laminate glue, this is a special BLOW GOO that when used in conjunction with our seam edge super glues, and explicit instructions guarantees Y3K permanent mats!

06-03-141	Mat stick- P. Kit	\$9.95
06-03-142	Mat Stick - Q. Kit	\$14.65

#### Super Glue - Rubber Toughened

A rubber-toughened cyanoacrylate that forms superior shock resistant bonds to non-porous surfaces (ski hull). This material has added flexibility for the bonding of metals, fiberglass, rubber, carbon-fiber and other advanced materials. This is the FINAL answer for keeping your Hydro Turf or rubber based mat kit edges stuck down. Use to seam edges permanently. Every tool box should have a bottle for riding days. Once dry it can be sanded just like Hydro Turf edges for seamless perfection. Also the best formula we have found for bar grips. (Also recommend accelerator for the best application)

06-03-151	Super Glue - Extra Thick - 1oz	\$6.10
06-03-152	Super Glue - Extra Thick - 2oz	\$11.00
06-03-153	Super Glue - Extra Thick - 8oz	\$32.99
06-03-154	Super Glue - Clear Rubber- 1oz	\$6.65
06-03-156	Super Glue Black Rubber 1oz.	\$8.80
06-03-161	Super Glue Accelerator - 2oz.	\$5.49
06-03-162	Super Glue Accelerator - 8oz.	\$12.10

#### Skeekeeper Tie Downs

The perfect solution for securing your aquatic machine. Short length nylon strap with locking pin slips in and locks to the rear eyelet of your watercraft. Simple and secure. Available with one 'S' hook or dual 'S' hooks. Sold one per package.

06-06-101	SkeeKeeper Double	\$23.95
06-06-102	SkeeKeeper Single	\$19.95

Port Billet Cylinder (Freestyle, Freeride & Race Applications)	\$425.00 +
Machine Exhaust Manifold	\$40.00
Machine Power Valve Blades	\$40.00

Horsepower and Performance:

The 2 words are a bit misleading and confusing when it comes to watercraft and their inherently inefficient impellers and pumps. The main facet we have noticed with our customers and pro riders is that neither word means much when you are sitting idle on the beach due to mechanical nightmares. At that moment of possible wife beating or nervous breakdown, durability and reliability really come to mind as the key words! With that seared foremost into our minds, the Blowson tech crew has put together the following engine package options. These are the same set-ups that you will find in our World Champion Pro Freeride domination, as well as the local lake and ocean rippers.

Yamaha 760 Big Bore:

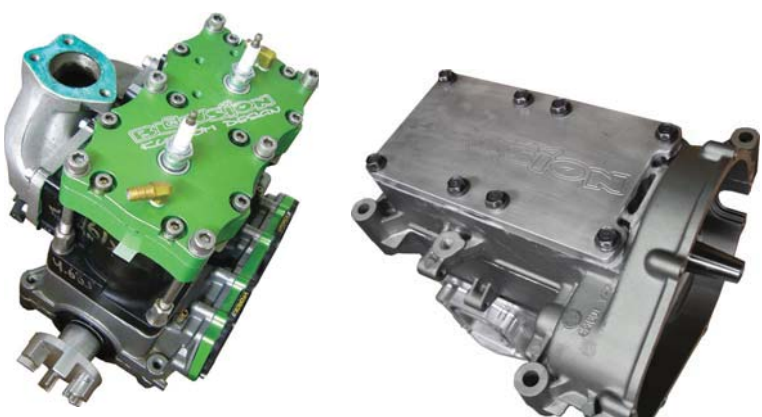

Always a favorite with the freerider and freestyle crowd, the Blowson 760 big bore uses our freeride sleeves that receive a full cnc port job before the liners are even installed. We match the cases, true and weld the crank and finish up with precise hand grinding for one of the most impressive 760s you have ever ridden. We offer this package ranging from stock stroke to 6 mil stroker. Call or email for further details and costs.

Yamaha 850 big bore:

This is a motor package that was designed to fill the gap between the 760 big bore and the billet stroker in both cost and performance. We are able to offer this package affordably with the ability to run any number of aftermarket billet head and dome combinations. In addition, we can also offer this cylinder set up ranging from a stock crank to a 5 mil stroker (908cc in a stock cylinder). For added durability, we reinforce all of our 850s and strokers with our Blowson Case Kranker. The resulting cases are far stronger than stock and are ready to accept whatever horsepower and abuse is thrown at them. All porting in both cylinders and cases are done with a CNC machine and hand finished to attain the highest standards. This gives us the ability to make calculated and interpretive changes for each customers performance demands. Call or email for further details and costs.

Dasa Strokors:

We have had great success with the Dasa product line and don't feel the need to reinvent the wheel. We offer the whole line from stock stroke non power-valve cylinders to 10mil power valve monsters. Please note that all of our big bore and stroker applications get our crank case reinforcement and cnc case porting. Call or email for further details and costs.

Standard One Way Valve Drain Kit

Unlike scupper valves that mount on the exposed exterior of your ski, our one-way valve kits install "into" the rear 1/4 of your PWC end caps. This keeps continual water pressure on the inside of the tube, keeping the valve shut when the ski is floating.

06-01-020	One-Way Valve - Valve Only	\$29.90
06-01-021	One-Way Valve Kit - Standard	\$99.95
06-01-024	One-Way Valve Kit - FX-1	\$107.50

Blowson CAS Billet Aluminum One Way Valve Scupper 06-01-022 \$161.50

The new CAS flow valve design prevents water getting in during tail stands, wave jumping, or all-out buoy shredding. The new billet flange assembly is the premium design setup and allows use of the Blowson billet exhaust outlet so vain riders can sanitize both sides of the rear of their watercraft. The aluminum, rubber, and injection molded construction of the Blowson one-way valve assembly along w/ the recessed internal mounting results in a bulletproof set-up. Fits all years Super Jet, KAWI 750 and SXR 800, KAWI 650, and Polaris Octane. Each pre-assembled kit includes explicitly detailed instructions, two Blowson molded glue able urethane bulkhead and ski flanges for leak less sealing, recessed one-way flow valve, special flex tubing (allows for off center mounting unlike straight PVC tube scupper systems) mounting epoxy and stainless fasteners. NOTE: recommend Blowson 2-part mixing foam pint kit with install.

Bilge Pump Hose - Black		
06-01-301	Bilge Pump Hose - 3ft	\$6.00

Kawasaki 800SXR rear sponson  
Manufactured from 6061-T6 Aluminum and anodized for corrosion protection. Supplied with all stainless steel hardware needed for installation. Designed to be a direct bolt on part. This sponson was designed to not allow the boat to slide through the corners.  
02-01-020 Rear Sponsons SXR \$119.95

**Yamaha Billet SJ Hood Finger Pull**  
Replaces factory plastic hoof clip on all 96+ Super Jets. Stellar function and look! Bright dip anodized.  
04-03-353 \$24.95

**Ride Plate - Carbon 2008+ SJ Race** 02-01-242 \$239.95  
Unreal. All we can say. Tested and updated for the unique 2008 SJ's. This dual channel recessed bottom design race plate is set up in full length for racing with the 2008 SJ.

**Blowsion CF Ride Plate - Kenney Lip Ripper - Yamaha** \$239.95  
Designed with feedback exclusively from Joe Kenney, Randy Laine and Clay Cullen this is quite simply the coolest ride plate for Super Jets available. For surf shredding go with the D cut model. This dual channel recessed bottom design plate is also available in full length for use as an excellent flatwater performance plate for 96-2007 SJs.  
02-01-245 96-07 SJ D-cut  
02-01-246 96-07 SJ Full

**Blowsion CF Ride Plate - Kawasaki SXR** \$239.95  
Unique reverse "D" cutout generates wave carving turns to die for. Also available for the SXR Racer is the Jet Ski Unlimited Race Version of the Lip Ripper. This is the same plate used by Pro Dustin Motzoursis is to win the Pro Ski World Championships.  
02-01-208 D-Cut  
02-01-209 Motz Race

**Blowsion CF Kenney Lip Ripper Plate - Blaster** \$239.95  
Designed with feedback exclusively from Blaster Pros Jimmy Visser and Pierre Maxient, this is quite simply the coolest Blaster ride plate for surf shredding available. Unique reverse "D" cutout generates wave carving turns to die for. Not an understatement. This dual channel recessed bottom design plate is also available in untrimmed length for use as an excellent flatwater performance plate.  
02-01-248 D-Cut  
02-01-249 Full

**Blowsion Stainless Steel SJ Intake Grate** 02-01-170 \$219.25  
If you want to stay hooked-up in Race or Surf conditions alike then try the Blowsion Yamaha Super Jet Intake Grate. Made from high-quality stainless steel this makes it virtually indestructible. The days of cracked or bent aluminum intake grates will be behind you, along with your slower scooping buddies! The mild weight increase of the stainless intake grate construction provides a lower center of gravity and keeps more ballast down low where you need it so you stay glued to the water in all conditions. Unreal performance gains on the new 2008 Super Jet for racers as well as freeriders. Flat-water freestylers can count on the same exact performance as the popular aluminum Worx 201 and 205 grate in indestructible stainless construction. Fits all years Super Jet.

**SXR Skat Trak Scoop Grate** \$239.95  
The Skat Trak stainless steel Scoop Grate for the Kawasaki 800 SXR stand up personal watercraft is designed for maximum efficiency and performance. Both models shown here are made out of Stainless Steel and utilizes the twin scoop, top loader design. The second scoop has been relieved a bit to maintain peak top speed in smooth water conditions. The production change in the 800 SX-R intake grate was made to work with the Skat Trak Aluminum Kawasaki 800 SX-R Pump Shoe. Bulletproof construction and performance.  
02-01-121 Skat-Trak Intake Grate SXR \$239.95  
02-01-122 Skat-Trak Intake Grate SXR Cut \$239.95

**Blowsion iZZneLL Twister nozzle**  
Available for 1990+ model year Yamaha Super Jet. Allows additional throw on steering nozzle and multiplies turn ratio and radius. Does not damage or tweak that expensive steering cable. All hardware and instructions included. Minor pump modifications required.

02-02-417 Twister - Bracket Only \$42.95  
02-02-418 Twister Complete Nozzle exchange \$92.95

**Blowsion Kustom Kut-Back Stainless Impellers**  
Increased acceleration, bottom end hook-up and hi-rev grunt are only a few of the advantages of the revolutionary Blowsion cut back impellers now being offered. These machined masterpieces work more efficiently than any stock or aftermarket "out of the box" impeller due to the blueprinting and cut back modifications performed. By machining the impeller, we are able to relocate it closer to the vein section of the pump, increasing response and reducing aeration of the water flow. This virtually eliminates cavitation problems in the surf and river chop. Finally, the performance that freeriders and racers deserve. Available in both Skat Trak and SOLAS options.

Item #: See Blowsion.com  
\$267.95 ~ \$297.95+

**Yamaha Magnum Pump - Skat Trak**  
Sold Outright- Skat-Trak 140,144 and 148mm Magnum Pump 12-Vane Std and Set Back models. Fits all years Super Jet and Blaster. Includes one SKAT TRAK Impeller.  
02-02-001 Skat Yam 12v S/B Mag Pump 140 \$2,075.00  
02-02-002 Skat Yam 12v Mag Pump 140 \$2,075.00

02-02-004 Skat Yam 12v S/B Mag Pump 144 \$1,591.00  
02-02-005 Skat Yam 12v S/B Billet Mag Pump 148 \$2,075.00  
02-02-102 Skat Trak Yamaha Driveshaft Exten \$419.00

**Kawasaki Magnum Pump - Skat Trak**  
Outright- Skat-Trak 12 Vane 140,142 and 144mm Magnum Pumps. Standard and Set Back models. Fits all years SXR 800 Standups. Includes one SKAT TRAK Impeller.  
02-05-003 Skat Trak Mag. Pmp 12v Setback SXR \$1,668.00  
02-05-004 Skat Trak Mag. Pmp 12v Std SXR \$1,668.00  
02-02-101 Skat Trak Kawi SXR Driveshaft Exten \$419.00

**SXR and SXI Pump Seal** 02-02-444 \$39.95  
Use this simple speed secret of the KAWI pros. Stops cavitation in the pump of your SXR or SXI 750 (All years). Refine your pump for maximum waterflow. Created from special composite material.

**Blowsion Aluminum Super Jet Intake Duct** 02-02-432 \$95.95  
Updated! Redesigned and incredible easy fit. Replace that easily broken OEM Yamaha intake duct with this unbreakable aluminum replacement. Fits all years SJ and Blaster. We recommend our 940 Fast-Set Marine Sealant install. Fits models from 1989 to current.

**Thrust Force Pump Core / Hub Kit**  
Emulate the performance of a Magnum Pump without the additional weight and expense. Transform the OEM Pump into a high performing large hub, high-pressure axial flow design inexpensively with the Blowsion Large Hub Thrust Force Pump Cone Kit. The Thrust Force Pump kit will drastically increase pump hook up and rear end traction. This innovative design allows impeller changes to be made easily in minutes. The Anti-cavitation rear cone length is tunable with kit supplied spacer shims which allows custom peak RPM tuning for any brand or pitch of impeller. Better wave crush bottom end, hook up and all around pump performance.

02-02-400 Blowsion Force Pump Cone Yama \$369.00  
02-02-403 Blowsion Force Pump Cone SXR \$319.04

Note - the Blowsion Yamaha pump cone will work with only a Skat Trak C-75 style impellers or Solas mag hub style impellers. It is not compatible with the stock impeller or smaller hub impellers.

**Pump Cone \$49.50**  
Designed with the freestyler in mind, the freestyle pump cone allows the engine to rev faster for the big tricks. Its small size lets a large volume of water move through the pump with less restriction than with the stock tailcone. This gives you more low end thrust for bigger air. Works great with a bored out stock nozzle to help provide even more low end. Detailed instructions and hardware included.

02-02-405 Kawasaki  
02-02-406 Yamaha  
02-02-407 Polaris/Mag Pump

**Impeller Shaft Tool**  
Holds spline of driveshaft for removal of impeller. Kawasaki model fits all 1992 and newer, while Yamaha model fits all years.

06-04-021 Kawasaki \$11.50  
06-04-022 Yamaha \$13.95

Woven Labels, and Embossed Side Panels.

**ARAI VX-PRO3**  
Lately, we've heard some riders say they don't think they need an off-road helmet "as good as an Arai because I can get a cheaper one, and it's almost as good." To which we respond: What part of their cheaper helmet does the "almost as good" refer? Fully removable, washable liner. Also available via 2 day special order all VX Pro custom colors. E-mail for details and current model pricing and colors. Take 25.00 off your custom paint price if purchased and painted from Blowsion.  
Color: White  
**07-03-101**  
**\$529.95**

**ARAI GP-5**  
The GP-5 is the newest helmet design from Arai, and is the helmet of choice of numerous top professionals including Jeff Gordon, Juan Pablo Montoya, and Dario Franchitti.  
**07-03-200**

# HELMETS

#### Blowsion Graphic Freeride Helmet

#### \$115.95

Made for Blowsion by Bell, these extremely light weight freeride helmets are perfect for giving your head that extra little bit of protection while you work the kinks out of your aerial maneuvers. Each helmet is constructed of multiple layers of hand laminated fiberglass and an EPS foam liner designed for maximum comfort and visibility with large eyeport design. Adjustable visor and 15 built-in vents provide excellent water drainage after aerial impacts. With an overall 'wet' weight of 2 Lbs you will not have any whiplash impacts from water weight.

Worn by Pro riders Ross Champion, Pierre Maixent, Mike Serlin and Air Darin Anderson.

# PAINT SEAT COVERS

## BLOWSION PAINT SERVICE PRICING

### Helmets

We can easily formulate a paint package that fits within your budget. Most of our helmet paint work ranges from \$595.00-900.00 US Dollars and up. We recommend using a new, solid color helmet for the best results. Used helmets with decals or OEM graphics require an additional prep charge of anywhere from \$45.00 to 95.00 and up.

We prefer that you do not prep (sand or primer) or mask the helmet yourself, or remove the moldings.

### Basic graphic layout

Additional cartooning or characters, Sponsor lettering, nickname, etc.	\$495.00 ~ \$700.00
Extra airbrush work or shadowing	\$40.00 ~ \$175.00 and up
Extra painted visor (for MX or open face helmets)	\$25.00 ~ \$250.00 and up
Bicycle or half-shell type helmets- basic layout	\$39.00 ~ \$95.00 and up
	\$295.00 ~ \$450.00 and up

Please do not hesitate to call or e-mail and share and image or idea with us for cost estimating and design input.

The turnaround time on helmets is approximately 4-10 weeks depending on customer demand and time of year. A two week or less rush fee is available for 300.00 additional or 30% off the final cost.

### Paint - Motorcycles

Tanks/Fenders - design only	\$1300 ~ \$1800.00 & up
Additional cartooning or characters	\$150 ~ \$1000 & up

### Extra airbrush work or shadowing

Sandblasting, prep/bodywork	Call or email for estimate
-----------------------------	----------------------------

### Paintable Chrome (5-7 weeks additional turnaround time)

Cost on this process ranges from \$350.00 to \$450.00 for helmets, and \$600.00 to \$1500.00 on up for bike sheet metal (this is in addition to the paint price). The set price is dependent on condition of helmet and or sheet metal. Please feel free to call or e-mail for a detailed estimate.

### Paintable Patterns

Want a unique Camouflage, Diamond Plate or Carbon Fiber background finish for your helmet design? Blowsion has been rendering what is commonly called Transfer Printing since 2003 as a base for some very unique designs. With a multitude of color backgrounds and patterns available as well as single or dual dip procedures, the costs for this process can be as little as \$190.00 on up to \$295.00 plus for extensive coating options. This price is in addition to the normal helmet paint design costs.

### Watercraft Paint and Hull Repair

Blowsion is a Factory approved repair and refinisher for all models and makes of PWC. Free insurance estimates. Fiberglass, SMC, Gel Coat, Metton etc...we fix it all. Let us do the itching for you. Call or email for estimate and cost breakdown information.

Watercraft Hull Reinforcement/Strengthening All models (a must for ocean or freestyle riders)	\$250.00 ~ \$650.00 & up
Watercraft Mat/Decal Removal • Hull Dis/Re-assembly • Hull Prep For Painting	Call or email for a detailed price estimate

### Watercraft Paint - Fully Disassembled Stand Up Watercraft

Custom airbrush with multiple colors	\$1300.00 ~ \$2500.00 & up
Airbrush shadowing, lettering etc.	
(Upholstery kits also available, call for prices.)	

### Watercraft Paint - Fully Disassembled Sit Down Watercraft

Custom paint with multiple colors	\$1500.00 ~ \$2700.00 & up
Airbrush shadowing, lettering etc.	
Custom matched mat and seat	
(Upholstery kits also available, call for prices.)	

### Watercraft "dress-up" Paint Packages

The below options require very little disassembly and are applied over certain areas of the base color factory finish.

Stand Up model graphic color paint package (includes lettering, cartooning etc. w/ clear coat)	\$400.00 ~ \$900.00 & up
Sit Down graphic color paint package (includes lettering, cartooning etc. w/ clear coat)	\$600.00 ~ \$900.00 & up

Do not hesitate to call or email and share and image or idea with us as building a stellar design together is the goal. The turnaround time on watercraft is approximately 6-10 weeks depending on customer demand and time of year. A three week or less Watercraft Paint rush fee is available for 500.00 additional or 30% of the final cost.

### Blowsion Stitched Seat Covers

Following up on our incredibly popular custom stitched mat kits, we now offer the same incredible quality and colors for all makes of PWC seats. Hand stitched in any combination of colors and patterns you desire.

### Yamaha Seat Covers
